**K.A.I. Total Pavement Management Continues to Grow**

***K.A.I. Total Pavement Management announces new site for self-performing construction crew in Kansas***

**Bucyrus, Kansas — October 25, 2017 –**

K.A.I. Total Pavement Management, a leader in parking lot maintenance, repair and reconstruction services, continues to grow. K.A.I. recently opened a new facility for the self-performing construction crew in the Overland Park area. The goal of this expansion is to better serve the commercial and residential customers with its asphalt and concrete paving solutions. “It is our mission to provide the best construction management services to our clients and this new facility is in line with that mission,” says Jane Jeffries, CEO.

Headquartered in Kansas, K.A.I. Total Pavement Management provides construction management services focused on parking lots and their related spaces to commercial clients across the country. It’s portfolio of solutions includes asphalt and concrete paving services, ADA compliance review and remediation, construction management, engineering support, asset management, consulting and more. In addition to operations in Kansas, the company has self-performing crews in California and Texas and field sales offices throughout the country.

A division of Kansas Asphalt, Inc., K.A.I. Total Pavement Management is among the nation’s largest woman owned construction firms with a focus on paving.

*K.A.I. Total Pavement Management delivers customized asphalt maintenance, repair and reconstruction services to all types of businesses across the US.*

*K.A.I. Total Pavement Management also has a full suite of concrete services for the maintenance, repair and reconstruction needs of businesses large and small throughout the US.*
